

Moran Statement on Tyson's Announcement to Cease Slaughter Operations at Emporia Facility

EMPORIA - Congressman Jerry Moran today released this statement following the announcement that Tyson plans to cease slaughter operations at its Emporia facility.

"The announcement today by Tyson is terrible," Moran said. "What happens at Tyson has a significant impact on the people of Emporia. I will work with local leaders to keep Tyson as an active part of the community and make certain Tyson has exhausted all other options before taking this drastic step. In addition, I will partner with local folks to look for other opportunities to create good paying jobs in the Emporia business community."
